

Innovations in Education and Technology 2023!

Theme: Innovations in Education and Technology 2023!

28th-29th September 2023

The Inaugural **International Conference on Innovations in Education and Technology (ICIET)**, hosted by the Academy for Advance Studies (TAAS), in collaboration with the University of Sunderland in London. The summit aims to bring together academia, researchers, scholars, and captain of industries through a 'blended' platform. They will be able to exchange information and share experiences and research results about all specialised and interdisciplinary aspects in their respective fields with members of non-profit organisations, independent research institutions, and government and private sectors worldwide.

Since distance is no longer a barrier to global gatherings of this nature, this blended submit can take place by leveraging on our network of partners across the globe. It will be used by distinguished professionals to share international best practices and contribute to the existing body of knowledge in their fields. It will also provide an opportunity for all attendees to network and present research findings to a global audience. Discussion of advances, trends, practical concerns, and challenges encountered in different fields will be actively encouraged and facilitated.

We are delighted to invite you, and your institution, to this educational conference because it will establish a great and friendly community of experienced researchers who are willing to mentor the younger generation in their respective fields. The Scientific and Executive Committees of the ICIET kindly invite researchers, scholars, and executive officials to take an active part in this event by submitting your research papers on the latest scientific and study findings for the main or related topics to the Conference Secretariat in London via the Electronic Submission Form and secretary.oiciet@taasltd.com.

CONFERENCE KEY DATES

Refereed papers: abstracts of 300 words or accounts of practice
150 words: 30th June 2023

Paper Submission: 31st July 2023

Registration: 31st August 2023

In person or online attendance is free

Conference Dates: 28th & 29th September 2023

Publication Fee: £175

All abstracts submitted for this conference will be carefully assessed by the Scientific Committee. If the abstract is accepted for presentation, the author or authors will be asked to send a full paper including research findings, tables, figures, references, and relevant appendices to Innovations in Education and Technology. The submission format is (.docx or.doc) and submissions will be accepted via **Electronic Submission Form**. All manuscripts must meet approval standards by the Conference Committee and be subject to review.

INNOVATIONS IN EDUCATION AND TECHNOLOGY CONFERENCE 2023

Learning technology is gaining well-deserved recognition and playing a key role both in how learners learn and in how institutions deliver their services to meet stakeholder expectations. Even now, with technology constantly advancing and stakeholder expectations becoming greater, what do universities and colleges need to do to stay a step ahead?

Certainly, interaction between learners and teachers is rapidly changing. We have witnessed the impact of COVID-19 on the education sector across the globe. This is happening against a backdrop of diminishing funding for scholarly activities by government and private organisations due to limited resources at their disposal, which is causing a drop in revenues at a time when universities and colleges are having to contend with the impact of the COVID-19 pandemic on students' educational development.

As practitioners or educational institutions, how do we contribute our share? To address this question, the Academy for Advance Studies (TAAS) decided with global partners to host this blended summit titled: **Innovations in Education and Technology 2023**. TAAS was established by a group of highly qualified interdisciplinary academics and experts in the education sector. We offer both industry-related and academic pathway courses that foster the development of knowledge, skills, and behaviours (KSBs) required to ensure learners' professional success in this era of transition to a greener economy.

Prospective authors or speakers are encouraged to contribute to and help shape the summit through submissions of their research abstracts, papers, presentations, and e-posters. Also, high-quality research contributions presenting original and unpublished results of conceptual, constructive, empirical, or theoretical work. This conference is aimed at calling attention to and facilitating a collaborative response from academics and practitioners, ICIET is seeking submissions related to but not limited to the list of conference topics below:

Themes and Tracks	Sub-themes
<p>Education Philosophy and Practice - Track 1</p>	<ol style="list-style-type: none"> 1) Curriculum, Research and Development 2) Theory and Practice of Education Development 3) Pedagogical tools 4) Teaching approach and materials 5) Counselling in Education 6) Apprenticeship Education 7) Education Practice trends and Issues 8) Education and Research Management 9) Educational Measurement and Evaluation 10) Lifelong Education 11) Teacher Education 12) Continuous Education 13) Higher Education 14) Adult and Continuing Education 15) Other related topics will also be considered
<p>Education Policy and Management - Track 2</p>	<ol style="list-style-type: none"> 1) Educational Administration 2) Education Policy and Leadership 3) Rural Education 4) Student Affairs 5) Education, Research and Globalisation 6) Education and Administration 7) Public Education Policy 8) Comparison of Sports Education in Different Cultures 9) Sports for health education 10) Other related topics will also be considered

Themes and Tracks

Sub-themes

Learning and Teaching in Higher Education - Track 3

- 1) Lifelong Learning
- 2) E-learning
- 3) Teaching and Learning
- 4) Learning Difficulties
- 5) Learning Psychology
- 6) Inductive and deductive reasoning
- 7) Language Acquisition
- 8) Assessment and Evaluation
- 9) Peeragogy
- 10) Other related topics will also be considered

Elementary Education - Track 4

- 1) Early Childhood Education
- 2) English for Specific Purpose (ESP)
- 3) Teaching Talent Training
- 4) Special Education
- 5) Home Education
- 6) Primary Education
- 7) Secondary Education
- 8) Comparison of Child Education in Different Countries
- 9) Language Education _ ELT/ FLT
- 10) Mathematics Education
- 11) Health and Social Care Education
- 12) Human Resource Development
- 13) Medium Education
- 14) Other related topics will also be considered.

Themes and Tracks

Sub-themes

Technology in Learning - Track 5

- 1) Technology in Educational Settings
- 2) Learning Theories Guiding Current Technology Development and Adoption
- 3) Prominent Technology Integration Models
- 4) Values Guiding Effective Technology Integration
- 5) Content Knowledge (CK), Pedagogy (PK), and Technology (TK)
- 6) Design Thinking
- 7) Artificial Intelligence in Education
- 8) Multimedia Learning
- 9) Machine Learning
- 10) E-learning Theory
- 11) Other related topics will also be considered.

PLEASE CAREFULLY FOLLOW THE MANUSCRIPT TEMPLATE GUIDELINES. Manuscript template (six to eight pages) / Extended abstract template (not more than two pages)

Please ensure your submission meets the conference's strict guidelines for accepting abstract, accounts of practice or e-poster: Your abstract should include the following sections:

- ◆ A title for the paper.
- ◆ An introductory statement to discuss the paper background and the significance.
- ◆ A succinct description of the preferred methodologies.
- ◆ A clear indication of the major findings of the research.
- ◆ A concluding statement.
- ◆ Five keywords listed in alphabetical order.
- ◆ Do not include any references or figures in the abstract.
- ◆ The abstract must be written in the third person and plain English.
- ◆ Abstract should not exceed (**300 words**) and accounts of practice or workshops (**150 words**).
- ◆ Add a brief biography about yourself [not more than **100 words**].
- ◆ Please choose the type of session that you would like to attend.

Information for Authors

- 1) All research papers must be original and not previously submitted to or be under consideration for publication for another journal while being reviewed by our conference scientific panel.
- 2) Authors who wish to have papers for inclusion in our prestigious conference proceedings and journals must be approved for publication by the academic peer-review process. We require full manuscripts to be submitted for review by no later than **31st July 2023**.
- 3) Titles of working papers not relevant to the themes covered may not be accepted and will be excluded from the conference process.
- 4) All manuscripts must be written in English, and the paper length should be between six- and eight-pages including figures, tables, photos, and references.
- 5) All manuscripts will be double-blind reviewed by at least two reviewers and will be published in the ICIET conference proceedings.
- 6) Selected full papers will be sent for review for potential publishing in designated education-oriented journals.
- 7) If your abstract is accepted by the Scientific Committee, which means you will be presenting virtually at the ICIET, endeavour to submit a full paper through the **Online Submission Platform**.

Paper Submission

Authors are invited to submit papers for this conference through Email: secretary.oiciet@taasltd.com or through Online Submission System. Authors are advised to follow our publication guidelines and may wish to use the following template: <https://conference.taasltd.com/>

To submit your paper, please proceed to the Online Submission Form. If within 24 hours you do not receive an email to confirm that your submission was received, contact the conference organisers via secretary.oiciet@taasltd.com

Academic Review Process

Papers submitted are considered for review if they are original and have been neither submitted to, nor published in, another publication. Simultaneous submission to other publications will result in immediate rejection of the paper and exclusion from the process. All abstracts submitted for this summit will be assessed by the Scientific Committee to establish the following:

- Relevancy
- Originality
- Accuracy
- Technical matters
- Research depth

All papers are put through a comprehensive and rigorous, fair, unbiased peer review and refereeing procedure, and are considered because of their significance, novelty, and usefulness to the conference readership. The peer review process ensures the anonymity of the referees & it will be reviewed by at least three subject specialists in the area. The review outcome will be one of the following decisions:

- 1) Accept with no changes.
- 2) Accept with minor changes.
- 3) Accept with major changes.
- 4) Reject and remove for the process.

The review process may take approximately (4 - 8 weeks) to be completed. The peer-review panel along with the 'Editor and Scientific Committee' reserve the right to reject a paper if it does not meet the conference standard for publication specified by the Committee on Publication Ethics (COPE).

Code of Ethics and Malpractice Policy

ICIET adheres to the ethical standards specified by the COPE, including the COPE Fundamental Practices and the Tenets of Transparency and Best Practice in Scholarly Publishing. All plagiarism cases for this series will be treated in line with COPE rules. For conference proceedings, ICIET also follows the IEEE Conference Standards for ethics and quality control. As a Member of Crossref, we are committed to ethical and strict anti-plagiarism policies: <https://www.crossref.org/>. Detailed information on this conference's ethics and quality control in proceedings publications can be found in the IEEE white paper. Submitted manuscripts will be assessed for originality using detection software.

Conference Registration via Eventbrite

- A Free in Person or Online Attendance via <https://www.eventbrite.com/e/innovations-in-education-and-technology-2023-tickets-593921574417>
- Free admission to Scientific Sessions
- Abstract and full Paper Publication Fee: £175
- Conference Proceedings to be Hosted by- SSRN - Elsevier

What to Expect from this Summit!

- ▶ High-quality, seamless technology, glitch-free and a user-friendly platform, with intuitive navigation and easy-to-find information.
- ▶ Interactive and engaging content with elements like live Q&A sessions and virtual networking opportunities, to keep attendees engaged and create a sense of community. This will be done through live chat and interactive polls.
- ▶ Provide relevant content and up-to-date information to meet your needs. Including break-out sessions to allow you to choose topics that are most relevant to your interests.
- ▶ Flexibility, you can participate from anywhere, at any time. This blended summit will be accessible on multiple devices and time zones.
- ▶ The summit is accessible to everyone, regardless of ability. The blended platform and content are accessible to people with disabilities, so that they can participate fully in the event.
- ▶ Networking opportunities is a key aspect of this event. You will have opportunities to network and connect with others, through networking rooms and private messaging.
- ▶ Dynamic speakers are engaged to captivate and educate the audience, while providing opportunities for them to interact with others.
- ▶ Valuable takeaways will be empirical knowledge and connections, as well as online access to presentations and conference materials.
- ▶ The event is well-marketed and targeted at the right audience, using social media platforms, emails, and influencer partnerships, so that you feel valued and appreciated.
- ▶ Affordability, the summit fee is very reasonable when compared to similar events in the past years.

Copyright and End-User License

The copyright of all published manuscripts in this conference proceedings remains with the author or authors (the manuscript ownership). However, permitted third parties can reuse manuscripts by following the open access rules as defined by the applicable **Creative Commons (CC)** end-user license, which an author or authors must accept upon submission of their research paper.

ICIET conference proceedings and manuscripts will be published under the CC **BY-NC 4.0** license. This means that end users can freely share the research papers, for instance, copying and redistributing the learning material as deemed fit in any format or medium and adapting it to meet specific learning and teaching needs as long as proper acknowledgement and a linkback to the source are given if any changes were made. The material may not be used for any commercial purpose. For more information, please refer to the Open Access and User Licenses.

Indexation

All submissions are freely and immediately available online. Moreover, each submission carries its own persistent identifier (DOI) and is indexed by Science Direct, Elsevier, Google Scholar, Google, and other public search engines to ensure that ICIET proceedings can be easily found by the readers. Your papers will remain permanently on SSRN unless removed by the conference organiser or contributing authors.
